ROUNDING UP NIGHT RIDERS. STATEMENT FROM A. S. OF E.

Five Indictments Returned at Benton on Gilbertville Raid by Special Grand Jury.

The Notice Which was Distributed on The Streets of Marion Applies to Burley District.

Paducah, Ky., March 28.—Five indictments were returned late yesterday afternoon by the special grand jury at Benton against alleged night riders who visited Gilbertsville a few nights ago and put the citizens in terror. Their names are withheld as publicity would interfere with their arrest.

The grand jury reported that it was making good headway in the night rider raid at Birmingham, where two negroes were killed, but desired further time to complete the investigation. Judge Reed had planned a trip, but said he would defer it until the grand jury had completed its work and extended its session until next Wednesday, when he will go back to Benton to hear the grand jury's report. There will be indictments in the Birmingham raid, this assurance being given the court. Several more witnesses have been summoned from various sections of Marshall and Lyon counties and still more are to be summoned.

Judge W. M. Reed, Commonwealth's Attorney John G. Lovett and Sheriff Pete Eley are working hand in hand to bring the night riders to justice. They say that the Marshall Circuit Court is going to do its duty and set an example for the state. The night riders are known to the officials and it is only a question of whether they can get sufficient evidence to convict them. The night riders are said to be badly frightened and some of them may get away before they are apprehended. The court officials say the conviction of a few of the unlawful band will put a stop to night riding in this end of the state.

Big Fire at Mattoon.

Last Thursday night a big stock barn belonging to G. D. Summerville, at Mattoon, about eight miles North of Marion was destroyed by fire.

The north side of the barn was entirely gone when discovered, but Mr. Summerville succeeded in saving his buggy, two horses, two mules and his wagon but all the hay and corn, and harness were burned.

There was four hundred dollars insurance on the building and one hundred on the contents.

It is not known how the fire originated, but is thought to be of incendiary nature.

It having been reported that there is likely to be trouble in Crittenden county if the people raise tobacco. We take this method to state that we have no knowledge of any effort being made, from any source, to cut out the tobacco in this district this year.

We know that the notice distributed on the streets of Marion, which cause so much comment, only applies to the Burley District and does not effect this county.

As county officers of the American Society of Equity we assure you that the Society is on friendly terms with all the tobacco associations in this vicinity and we see no reason, nor do we believe that any exists which would cause any disturbance in Crittenden county this year.

Nearly a Hundred Soldiers to Resist Night Riders.

Murray, Ky., 3.—Soldiers to the number of 85 arrived here last night to resist a force of one hundred and fifty night riders forming in this county. These night riders were ready to attack the city Wednesday night and to burn all warehouses, but the citizens organized hastily, and threw a picket around the town. No one has slept in two nights and excitement is at a high pitch.

A man who was whipped out in the county Tuesday night was sent into town by the riders to carry word that they were coming to spread fire and lead. Requests for the soldiers was instantly made and they arrived last night.

FISCAL COURT

Makes Appropriation of \$1,250 to Build Bridge at Dunn Springs --Good Investment.

The Fiscal Court Tuesday made an appropriation of \$1,250 to build an iron bridge across Crooked Creek, two and one-half miles above its mouth at or near Hebron and Dunn's Springs churches. The contract was not let to the Champion Bridge Co., who was the only bidder, but is held hoping for lower bids, and calls for completion of the work Oct., 1st, next.

This is one of the most internal improvements made in the county in many years and binds two sections of the county together which the adjacent have hitherto had, no means of access one with the other, much of each year. The business men and farmers and in fact everybody of any influence have worked hard for this prospect many years, in fact ever since the war the matter has been up for discussion at intervals and many wagon debates have been had over the location, many favoring mouth of creek notwithstanding quick-sand, formation there. From what we learn the location chosen is an ideal one on which the road is never troubled with high water, and we congratulate that section of the county on the fortunate work of the Board of Magistrates Tuesday.

The men who ordered the bridge built. The Board of Magistrates is composed of the following named gentlemen:

J. R. Pollewright, Lyttleton Hodges, Thomas M. Larue, L. B. Phillips, T. A. Yandell, Sam Marks, J. J. James, W. B. Binckley, and we are informed that they were unanimously in favor of the prospect.

PUBLIC SPEAKING

Monday, April 13th, 1908—Everybody Should Attend.

M. F. Sharp, of Narrows, Ky., State organizer, will address the tobacco growers and farmers at the court house, at one o'clock, Monday April 13th, 1908, in the interest of the "American Society of Equity."

All the member are requested to come. All other citizens invited. He is the State Organizer and will make a good talk.

Letter From Georgia.

College Park, Ga., March 16, 1908. Editor Crittenden RECORD-PRESS, Marion, Ky.

Dear Sir:—Please find inclosed one dollar to pay for the dear old Press. When I read its precious lines it makes me think of home and friends and loved ones and I long to be back in my old Kentucky home.

No other place on this earth will ever seem as much like home to me as old Crittenden, and I think I will come back there some day to make it my home again.

I did think of coming this spring but have given it out for a while, though I think I will come out this summer and spend a few days at least, with my friend and relatives. I will close for this time with love and best wishes to all.

Colonial Empire, the Unknown Philippines.

Camp Keithley, Midd. P. I., Feb. 16, 1908.—As attractive, perhaps, as any other land under the stars and stripes are the vast unknown Philippines.

The Philippines outside the cities, which present a phase of the archipelago that Americans in the islands are just beginning to appreciate, but with which the people of the United States are almost as unfamiliar as they are with the black heart of Africa.

PHILIPPINES LARGER THAN BRITIAN.

Picture, if you will, the huge Philippines, seven thousand square miles larger than the British Isles, though with only one fifth of England's population. An insignificant proportion of their eight million Malay people dwell in great cities, the rest live in scattered hamlets and communities along the seacoasts and in the great interior. Valleys and plains, there is but one notable exception to this distribution of the people, that of the hardy Igorrotes: those most prodigious workers and scientific irrigators, who to a number probably exceeding three hundred thousand, make their homes in the almost inaccessible mountain heights of interior Luzon, and a minor exception is found in the case of a few wild fugitive tribes, like the Negritos and Tirurays, who dwell for the most part in the deep forests of the coast ranges.

Because these millions live a command life and seldom leave the locality in which they are born, they are unknown even to the leaders of their own people.

There are today in the unknown Philippines, in the remote provinces and far from the cities, many young Americans who are starting up plantations and who swear by the country.

It is of these pioneers that you will learn something new about the Philippines. I know many who have been in the Islands for or six years and have not had a sick day. I have myself been in the Islands off and on since 1901, and have never had any sickness.

Down at Davao on the huge Islands of Mindanao, there are about forty Americans, most former soldiers who have served their enlistments and are now owning and managing their own plantation. Those men

RECIPE FOR RHEUMATISM.

Directions To Prepare Simple, Yet Remarkable Home Mixture. Read Carefully.

There is so much Rheumatism here in our neighborhood now that the following advice by an eminent authority, who writes for readers of a large Eastern daily paper, will be highly appreciated by those who suffer.

Get from any good pharmacy one half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Shake these well in a bottle and take in teaspoonful doses after each meal and at bed time; also drink plenty of good water.

It is claimed that there are few victims of this dread and tortuous disease who will fail to find relief in this simple home-made mixture, and in most cases a permanent cure is the result.

This simple recipe is said to strengthen and cleanse the eliminating tissues of the kidneys, so that they can filter and strain from the blood and system the poisons, acids and waste matter, which cause not only rheumatism, but numerous other diseases.

THE TAGALOG.

The Tagalog, who numbers almost a million and one-half, are the most mentally alert race in the Islands.

For generations they have lived in and near Manila, in closer contact with the white race than any other; they are not nearly as strong physically as the Visayans, Ilocanos, Bicolos or some others, but these people are all sorts and conditions of Filipinos people. It would be as difficult to describe them as it would be to describe the people of the United States.

Horrible Accident.

While several little boys were shooting frogs in a pond near Salem Corbie Franklin, the thirteen year old son of Lawson Franklin was shot and instantly killed, Friday afternoon. The investigation by the Coroner showed he was accidentally killed by a target gun in the hands of the twelve year old son, of the Hon. James Summers. The boys were in the habit of playing together and were great chums. The Summers boy is almost wild in distress as he realizes more and more the loss of his little friend and playmate.

The little fellow was brought to Union cemetery and laid to rest in hope of the Resurrection. The heart-broken father and mother and relatives have the profound sympathy of their many friends.

NEW STATE LAWS

Acts of the Late Legislature Presented Here In Concise Form.

SOME OF VITAL IMPORTANCE

While Not So Many Laws Were Enacted as by Previous General Assembly, Some Acts Stand High.

Reorganization of the Kentucky School System Was One of the Measures of Large Importance.

Far-Reaching Action Was Taken Toward a Regulation of Tobacco Business in the State.

Among the Measures That Failed Were the County Option Bill and the Reapportionment Bill.

The Kentucky Legislature that adjourned on March 17th did not enact as many laws as its predecessor, but some of the laws are of vital importance. Chief among these are the following: Act abolishing the present school trustee system and establishing county boards to control the schools and teachers; act to prevent a man from selling his tobacco after he pools it; act appropriating \$476,000 to complete the new Statehouse and maintain it; act appropriating \$300,000 to the two Normal Schools and \$200,000 to the State University; act putting poolrooms out of business; act giving state aid to all tuberculosis sanatoriums; act providing for a vote to annul the constitution so as to permit state aid to public road building; act authorizing warehousemen to commingle tobacco of like grades; act further regulating the employment of children in factories; and an act providing the tax penalty shall not go on until December 1 each year.

The bill to extend the county unit local option law to all counties in the state failed to pass, as did the bills to redistrict the senatorial and representative districts, and the bill requiring all buyers of tobacco to pay a license fee.

The governor vetoed a number of bills, the most important one being the Arnett bill exempting from taxation stock in foreign corporations owned by residents of Kentucky.

The total amount of all appropriation bills is about \$1,325,000, and the session of sixty days cost about \$90,000.

Governor Wilson gave out a statement reciting at considerable length his reasons for vetoing several appropriation bills passed by the legislature. The principal bill vetoed was the measure appropriating \$100,000 for a state tuberculosis sanatorium. Three or four other measures added considerably to the sum appropriated by the legislature. In his statement the governor recites that when the present legislature and state officers were elected there was nearly a million and a half of dollars in the treasury. This surplus, he says, the legislature, against his wishes expressed in messages and vetoes, wiped out and then proceeded to pass the measures just vetoed after the auditor had presented to the two houses a statement showing that there was but \$189 left in the treasury. The course of the majority of the legislature is sharply arraigned in the statement.

The following bills are all that passed and were signed by the Governor:

HOUSE BILLS.

101. Crecellus—Act providing a fine for the seller and the buyer of a crop of tobacco that has been pooled, unless sold by consent of the pooling organization.

102. McChord—Act providing a fine for the sale or transfer of a piece of personal property where the possession is in one person and the title thereto is vested in another. (A companion bill to No. 101.)

103. Waggoner—Act increasing the annual appropriation for the Kentucky Children's Home Society from \$15,000 to \$30,000.

104. Klar—Act changing the name of A. and M. College to "State University."

105. Brooks—Act providing that fines and forfeitures in police courts in fourth-class cities shall be collected by the cities, in case of appeal.

106. Lillard—Act to prevent the manufacture and sale of adulterated or misbranded foods, drugs, medicines and liquors, and appropriating \$30,000

for election officers as soon as work is completed.

107. E. Meyer—Act requiring city of Louisville to levy a 3-cent tax for school purposes instead of 33-cent tax.

108. Hunter—Act to define and

a year to have the Kentucky experimental station enforce the law and test the articles named.

109. Sullivan—Act appropriating \$150,000 each for new buildings for the two state normal schools and \$200,000 for the State University.

110. Sullivan—Act changing the basis of representation for free tuition to State Normal Schools for a certain number of pupils from each county.

111. Meyer—Act to promote and compel attendance of children in schools and to prevent truancy in cities of first, second, third and fourth classes.

112. Graves—Act changing time of holding circuit court in the Second district.

113. McChord—Act empowering fire insurance companies in this state to incorporate with only \$50,000 capital stock instead of \$100,000.

114. Wilson—Act to amend the drainage laws as applicable to Union county.

115. Schobert—Act appropriating \$100 to remove the remains of Thomas F. Marshall to the cemetery at Frankfort.

116. Porter—Act transferring town of Clay in Webster county to fifth-class towns.

117. Strange—Act providing that dental parlors or dental companies shall be operated under the name of the proprietor.

118. Buford—To enable State Board of Pharmacy to exchange certificates of registration with other states, allowing pharmacists registered in another state to practice pharmacy in Kentucky.

119. Klair—An act relating to children who are now or may hereafter become dependent, neglected or delinquent, to define these terms and fixing and defining the power of the several county courts within this commonwealth with reference to the care, treatment and control of such children, and to provide for the means whereby such powers may be exercised (known as Juvenile Court bill).

120. Klar—An act fixing and defining the powers of the several county courts within this commonwealth with reference to persons responsible for or directly promoting or contributing to the conditions that render a child dependent, neglected or delinquent, and providing how such powers may be exercised.

125. Rives—An act allowing the attorney general three assistants, a law clerk and a stenographer.

126. E. M. Taylor—An act for the maintenance of public levees, the bill affecting only Hickman county.

127. Nell—An act to prohibit the sale of intoxicating liquor by wholesale in a local option territory, to any except a licensed retailer or wholesaler.

128. Burnam—An act creating a bipartisan board of control of charitable institutions.

129. Combs—An act appropriating \$10,000 for the repair of the monument of Henry Clay.

130. Linn—An act providing state aid for free tuberculosis hospitals where erected and maintained by private subscription.

131. Simmons—Act empowering fifth-class towns to issue refunding bonds to pay debts.

132. Simmons—An act providing that a majority of the voters of any fourth-class town shall decide whether or not that town shall be annexed to a second-class city. The old law was that 40 per cent could govern.

133. Beard—An act providing that fiscal courts may use the poll-tax to increase the road fund in any county.

134. H. L. Myers—Act fixing maximum fine at \$100 for sale of drugs in violation of the law as to the sale of drugs.

135. P. W. Berkshire—Act to repeal that part of Section 2412a Kentucky statutes that requires land owners to keep clean the waters of navigable streams.

136. Steers—Act authorizing warehousemen to commingle tobacco of like grades.

137. Sullivan—Act providing for the continuation of the Geological, Topographical and Agricultural Survey.

138. Anderson—An act authorizing county courts to make contracts for four years for road construction and repair. The law now limits it to one year.

139. Harris—Act to regulate the child labor law and make the provisions thereof effective.

140. Porter—Act authorizing the unused money in any school district to be applied to the next term or to increasing pay of teachers.

141. Haswell—Act allowing the State Librarian a clerk at \$50 per month.

142. Buford—Act defining the crime of abortion and fixing a severe penalty therefor.

143. Sullivan—Act for the government and regulation of common schools; abolishes the present trustee system and creates the county board system; does not apply to cities, towns and graded school districts.

144. Porter—Act amending the revenue law so that the penalty does not go on until December 1 each year.

145. Shanks—Act changing time of holding circuit court in the Thirteenth district.

146. Klar—Act to provide for the care and custody of courthouses in counties containing second-class cities; applies especially to Lexington.

147. Rules Committee—Act giving chief clerks of Senate and House 30 days' pay to prepare permanent copy of journals of each house.

148. Nichols—Act giving defendant in felony cases ten peremptory challenges and commonwealth three.

149. Wallace—Act allowing pensions to members of Veteran Voluntary Firemen's Association, of Louisville.

150. Porter—Act authorizing sheriffs to pay election officers as soon as work is completed.

151. E. Meyer—Act requiring city of Louisville to levy a 3-cent tax for school purposes instead of 33-cent tax.

152. Hunter—Act to define and

make clear the statute (Sec. 1308) relating to drawing weapons and shooting on public highways.

153. Wilson—Act authorizing justices of the peace to hold court twice a month.

SENATE BILLS.

154. Bosworth—An act giving to authorized corporations the right to construct dams across navigable streams and allowing them to exercise the right of eminent domain. The bill is so drawn that it applies only to Cumberland Falls, where a power plant is to be erected.

155. Combs—An act to accept the provisions of an act of congress allowing increased appropriations for the Agricultural Experiment Station.

156. Nell—An act to provide for an annual school for city and county health officers, at which shall be taught the handling of contagious diseases.

157. Combs—An act changing the name of Kentucky University to Transylvania University.

158. Cureton—An act allowing the commonwealth's attorney in Louisville two district detectives.

159. Hogan—An act abolishing registration of voters in cities of the fifth and sixth class.

171. Nell—An act appropriating \$67,000 for the benefit of the insane asylum of the state and the Feeble-minded Institute.

172. Burnam—An act appropriating \$40,000 for the State Normal and Industrial School for Colored People.

173. H. H. Smith—An act providing for a sub-experiment station in eastern and one in western Kentucky, and appropriating \$5,000 for each.

174. Landram—An act to allow the reassessment of property in McLean county, where the courthouse and records were burned.

175. Bosworth—An act appropriating \$170,000 for the completion and maintenance of the new capitol and the surrounding grounds.

176. Donaldson—An act to allow the state to appropriate money for the care and custody of courthouses.

177. Walker—An act changing the child labor law so as to do away with the unlimited bond.

178. Hogan—An act providing that adjoining property owners must share the expense of a division fence.

179. Campbell—An act increasing the maximum liquor license in cities of the second class to \$50.

180. Combs—An act fixing the sites of personal, intangible property and exempting it from taxation if the owner is not a resident of this state, but has a trustee here.

181. Walker—An act allowing fourth-class cities to issue bonds for street improvements and providing for the construction of sewers on the ten-in-stallment plan.

182. Rives—An act appropriating \$23,000 for the Kentucky School for the Deaf at Danville.

183. Watson—An act regulating the opening and closing of streets in fourth-class cities.

184. Burnam—An act creating office of stenographer to the Governor at \$1,200 per year.

185. Wilhelm—Act to prevent operation of poolrooms where betting on horse-races is carried on; provides \$1,000 to \$5,000 fine; also prohibits "handbooks" for betting on races, but excepts regularly organized racetracks from the provisions of the bill.

186. Bosworth—An act to authorize, under certain conditions and restrictions, the use of public highways, roads and turnpikes by persons, firms and corporations engaged in the manufacture, transmission and distribution of electricity for lighting, heating and power purposes.

187. Wright—An act providing for two additional assistant mine inspectors and providing rules for operation of mines with more safety to miners.

The Road to Happy Town.

"Where is the way to Happy Town? I have lost it many a mile." And the winds blew up and the leaves blew down.

As I sat by a lonesome stile Along the road of Discontent Where many weary pilgrims bent Their steps, and wandered up and down

Seeking the way to Happy Town. "Tis by a long and rugged road" I heard a little maid say, And each must share a brother's load Who travels by that way.

And all day long gleams in the light; 'Tis pain seen, the city fair, When the heart is clean the eye clear. Give me your hand and come with me.

Little maid we'll fare together, If the wind be high and the storm ride free.

Or fair or rosy weather, Lean on me, dear, by the rough marsh way, And lend me your hand as a tender stay,

Through the gray sun smile or the grim storm frown. Well make the way to Happy Town.

Death Was on His Heels.

Jesse P. Morris, of Skippers, Va., had a close call in the spring of 1906. He says: "An attack of pneumonia left me so weak and with such a fearful cough that my friends declared consumption had me, and death was on my heels. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and one-half bottles I was a well man again. I found out that New Discovery is the best remedy for coughs and lung diseases in all the world. Sold under guarantee at Jas. H. Orme and Haynes & Taylor drug stores. 50c and \$1.00. Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Fortunately, not one weak heart in a hundred, in itself, actually disease. Almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply fails, and must have more power, more stimulus. By this means regaining strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This is exactly why an application of Dr. Shoop's Restorative has such done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative has powerfully relieved and corrected this weak and wasting nerve center. It builds up strength; it offers real, genuine heart help.

If you would have strong Heart, strong digestion, strengthen these nerves—re-establish them as needed, with

DITNEY.

You haven't read any Ditney items for quite awhile so here we come again.

Health is very good in this community now, and farmers are getting very busy.

Mrs. Ethel Vaughn and babies, of Carrsville, are visiting there father-in-law, Mr. David Vaughn this week.

Omer Johnson is going to school at Lola.

Miss Etta Hoover and Miss Ada Belt visited Mrs. Ida Watson one day last week.

The singing at Enoch Belt's last Saturday night was largely attended and enjoyed by all.

William Johnson has got his new houses nearly completed.

Lenard Lynn's wife and baby visited Mrs. Frank Watson one day last week.

Mrs. Rosa Myers and children are visiting their mother.

Tom Johnson, of Gideon, Mo., visited his mother and friends a few days last week. We are all glad to you once more, Tom.

Lee Thompson and wife left here Thursday for Missouri, where they will make their future home.

Miss Pearl Garnett is visiting her grand-mother near Salem.

The remains of Mrs. Martha McMaster, of Irma, was laid to rest at the Watson graveyard last Sunday. She leaves a husband, baby, father, mother, brother, sister and a host of to mourn her loss.

Dollar Watson has built him a house on his mother's farm and moved into it last week.

CURE YOUR KIDNEYS.

Do not Endanger Life When a Marion Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness headaches, languor, why allow themselves to become chronic invalids, when a certain cure is offered them?

Doan's Lidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one of the symptoms of kidney diseases, cure yourself now, before diabetes, dropsy or Bright's disease sets in. Read this Marion testimony.

W. Tabor, Marion, Ky., says: "I suffered for ten years from kidney trouble. There were severe pains in the small of my back. I was unable to sleep at night, arose in the morning feeling very lame and sore and during the day was tired and languid. I was very nervous, headaches were of frequent occurrence and I often suffered from dizzy spells. My eyesight seemed affected, as there was often a blurring before my eyes. They kidneys themselves were in a disordered condition, the secretions passed to freely and when allowed to stand contained a heavy sediment. It was finally my good fortune to procure Doan's Kidney Pills at Haynes & Taylor's drug store. I took them according to directions and in three weeks felt great relief. Thus encouraged, I continued taking them and the use of one box made a complete cure. Your medicine is an excellent remedy for the kidneys and I would recommend it to any one suffering from kidneys complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

If it is good business sense to have the store open only "once in a while"—or to have clerks on duty, or a delivery service in operation, only "once in a while"—then perhaps, it is also well to advertise adequately only "once in a while."

Makes Hogs Fatten.

W. T. Crosthwaite, Lexington, Ky., says: "I gave your Bourbon Hog Cholera Remedy to some hogs that were not thrifty and weighed only a hundred pounds when my other hogs of the same age weighed two hundred pounds. I never saw hogs grow and fatten as fast as these hogs did after I gave them this remedy." Sold by Haynes & Tayor.

After Twenty-Nine Years.

"For twenty-nine years I have been at intervals a great sufferer from rheumatism," writes James Hyde, of Beebe, Ark. "During that time I used gallons of various kinds of liniments and oils, but got very little relief. The attacks were so bad that I was often confined to my bed helpless for weeks and months at a time.

"Not long ago, while suffering from a severe attack, a sample bottle of Sloan's Liniment was sent to me for trial. My surprise was great when I found that it gave me instant relief, and I immediately ordered two large bottles. I have used about a half of one fifty-cent bottle, and feel so well that I want everybody afflicted as I was to know what Sloan's Liniment has done for me, and I shall always have a feeling of gratitude for the man who sent me the sample bottle."

Letter From Wiggins, Mississippi.

Wiggins, Miss., April 4th, 1908. Mr. Editor.—If you will grant me a little space I will try and comply with a promise to many friends in Old Kentucky. Almost a year has passed since we bid good bye to friends and loved ones and turned our faces southward. How time flies, and in its passings so many have been called from this work of men. Let us all try to live, so when we too are called, we'll be ready to go. We have made many warm true friends here, but I think we are affected somewhat with the enlargement of the heart for not one of the old ones are the least crowded.

Here as elsewhere we have our ups and downs, appointments and disappointments. We've been blessed with health and plenty to eat (sometimes), but it would break a hungry man's heart to see us eat when we get a chance. We are trying a new venture this year. A truck growers organized at Wiggins this winter and we "joined" so now we have to truck (I believe that's it). There is about seventy-five members add about 200 acres pledged. The main part cabbage and tomatoes.

We have corn, peas, potatoes, on-

ions, lettuce, and etc., growing. Have about 5,500 cabbage in the field and 6,500 tomatoes transplanted to cold frame. Have water melons cantelopes bean and cucumbers planted and have four or five bushels of sweet potatoes. Now Mr. Editor there is lots of possums down here and the best place to raise tatoes and they are the sweetest and best you ever eat, just come down and we will have a barbecue.

Today feels like sure enough spring. They claim this has been an unusual cold winter, but we have not had a day cold enough to make Lige Franklin think of his coat.

Unknown Philippines.

(Continued from 1st page.)

white man. The regions are some of the richest in the world and if inhabited at all, are only the homes of nomadic tribes. The Pagan tribes or savages number about six hundred thousand and, with the exception of the Igorrotes, are generally most primitive.

THE IGORROTES

The Igorrotes, who can neither read or write, who have no signs or symbols such as even the cave-dwellers scratched upon the rocks, have just developed some of the most amazing irrigation works in the world.

They terrace mountain canyon's to height of three thousand feet and grow rice on the summit of each flooded terrace. They often mix the water used for irrigation with an enriching sediment and thus irrigate and fertilize with one operation, a step ahead of the United States.

The number of Igorrotes is probably over three hundred thousand; they are a jolly, peaceable and hospitable people, though the tribes engage in bitter feuds that are carried from father to son. Head hunting common to all uncivilized Malays, is occasionally still practiced in the most inaccessible Igorrote communities.

The Igorrotes are fine workers, and some of the best trails in the Islands are to be found among the mountians in the heart of Luzon.

THE MORO'S.

All the wild tribes are amenable to civilization, even the Moro's who are Philippine Malays, who believe in Mohammed, are taking readily to public market places where they sell jungle produce for cash.

The industrial conversion of the Moro's is remarkable, for no belief affords greater resistance to the inculcating of the white man's civilization than does the belief of the followers of the prophet.

The Island of Mindanao is about the only one in the Philippine group, that there is any trouble on at the present time. There is an expedition

out in the field now, which consists of two troops of the 6th Cavalry, six Companies of the 18th Infantry, six Companies of the 2nd Infantry and the same number of the 25th Infantry and Battery D, 4th Field Artillery (a mountain Battery) and several Companies of native troops, all together about fifteen hundred soldiers, but at present everything is quiet here at Camp Keithley, so having written quite a long letter and hoping that it may find space in the columns of your valuable paper, and not in the waste basket, I shall bring my letter to a close, wishes to the RECORD-PRESS and its readers.

I Remain
Very Respectfully,
BURT E. WOODY,
Capt. Co., D. 18th Infantry.

SAVE LIVES ON OUR COAST

Along 10,000 Miles of Seashore There Are 272 Stations to Aid Mariners in Danger.

The sea and lake coasts of the United States, exclusive of the coast of Alaska, have an extent of more than 10,000 miles. There are to-day upon these coasts 272 life saving stations, 187 of which are on the shores of the Atlantic, eight on the shores of the Gulf of Mexico, 16 on the shores of the Pacific and 69 on the shores of the great lakes. There is, besides, a station at the falls of the Ohio river at Louisville, Ky. These stations are located at selected points of danger to shipping and vary somewhat in character, according to their environment and nature of service demanded of them. On some portions of the coast they are placed at long intervals, while upon others they form chains of contiguous posts within communicating distance of each other. Since the establishment is chiefly related to commerce and to the collection of revenue, it is attached to the treasury department, which discharges all executive functions of that character.

FLOWERY.

Cavaliere Grasso, one of the Sicilian actors now in London, at a luncheon given in his honor recently made a speech to his hosts, a part of which has been translated as follows: "Would that I were a dove, its wings laden with diamonds, that I might scatter them over you. Fair would I be your dawn, herald of a golden future. Fair would I be your twilight haunted by happy memory. I would be your sun, to hold all in my embrace, to melt the snows of your winter with the fire of my art into limpid streams, chiming as they flow. I would be the spring time, bringing to you fresh happiness and tenderness of love. I would be the summer, the twilight, the dawn, the sun, the dove, all together—your Giovanni!"

INDIAN COURAGE.

Katherine Beaulieu, a pupil of the Chilocco Indian school, Oklahoma, had her hand caught in the big steam mangle, and before the machine could be stopped the arm had been dragged in above the elbow. The physician was able to save the arm, but in order to facilitate healing it was necessary to graft 50 pieces of skin over the wound. Volunteers were called for, and the doctor reported several scrimmages among the other pupils for the honor of being the first to contribute part of their epidermis. The girl's arm was saved.—From the Indian's Friend.

500 Pictures of Roosevelt AND Farm and Fireside for 1908

Free With Your Subscription To The

Crittenden Record--Press

If you will send us \$1.00 cash in advance for a year's subscription to the CRITTENDEN RECORD-PRESS or if you are in arrears; and will pay up back dues, we will send you, free of charge, Farm and Fireside twice a month for the rest of 1908 (nine months), and 500 Pictures of President Roosevelt besides.

FARM AND FIRESIDE

is the National farm paper. It prints and circulates each month more copies than any other agricultural publication. For over thirty years it has been "The Giant of the Farm Press," and now it is bigger, better and more helpful than ever. Has departments covering every phase of farm life, from plowing to the kitchen. Interests not only farmers, but horsemen, poultrymen—in fact, any one who keeps animals or lives outside of the large cities. Has thousands of readers in every state in the Union. Farm and Fireside is published twice a month, which is twice as often as most farm journals are published. It stops when your time is up. We heartily recommend it to all our readers as the cleanest, brightest biggest and most helpful farm paper we know of.

THE 500 ROOSEVELT PICTURES

are all arranged on one superb mounting, 13 $\frac{1}{2}$ x 20 $\frac{1}{2}$ inches, into one big photograph, but every picture is separate and distinct from each of the other pictures. This photograph of 500 pictures is the most wonderful photograph ever made, and the only one of its kind in existence. It cost \$1,000. No other like it can ever be made of President Roosevelt, and there is probably no other public man on earth who has had enough "snapshots" taken to make a picture of this sort. It took one man two months merely to put together the 500 pictures, and two other men worked just about as long making the prints. The 500 pictures were chosen from 2,500 in the possession of Underwood & Underwood, the President's official photographers, and they show the President in his most characteristic attitudes. They were taken in every state in the Union except four, and at some of the most important events that have taken place in American history. Five years from now, reproductions of this great \$1,000 photograph will be worth many dollars, as the supply is limited, and later on, when President Roosevelt is out of public life, they will be priceless treasures in any American home. The reproductions of this great photograph are entirely controlled by Farm and Fireside, which owns the original \$1,000 photograph.

Remember, you get the Farm and Fireside, the 500 Pictures of Roosevelt, and The CRITTENDEN RECORD-PRESS all for only \$1.00. Send your subscription today and address The CRITTENDEN RECORD-PRESS.

THOUGHTS ON BUSINESS

BY

WALDO PONDRAY WARREN

BUSINESS METHODS IN SCHOOLS

N EARLY every educational institution in the country is open to criticism from the business man's point of view because it violates one of the first principles of sound business. That principle is—to work every man at his best capacity. The business man employs an assistant to save his time, a stenographer to save the assistant's time, an office boy to save the stenographer's time, and modern office devices to save the boy's time. All business organization is based on this principle.

The educational institution often ignores this principle and requires its most capable workers to do certain work that less skilled persons could do. The keeping of laborious records, and all the multiplied detail attendant upon the conduct of classes, might properly be placed in the hands of persons especially suited to the work, leaving the instructors free to do their best in those higher lines of work for which they are prepared.

It is partly because of the unbusinesslike methods used in many of the schools, and the lack of appreciation of the economies and principles of business, that young men come from the schools unprepared to take such part in the business world as their age and talents in some directions ought to entitle them to take.

DEEP MYSTERY OF THE SEA

How Came Portrait of American Captain, Lost with His Ship, on African Coast?

They that go down to the sea in ships learn much of the mysteries of life. From the coast of Africa there traveled to Scarboro, Me., the painting of an old-time sea captain of that town, who long years ago was lost, with all on board his ship in the China seas. The ship sailed from the home port with every prospect of a successful voyage, but she never returned to the home land. Years went by and she was given up as lost; her name was taken from the shipping list, and no news of her came back to the waiting ones at home. Long afterwards a passing vessel picked up off the African coast the portrait of an American sea captain such as the Chinese artists paint, and on the back of the picture was the captain's name and that of the port from which he sailed. The painting was forwarded to the little American town, and it was found to be a picture of the Scarboro sea captain, master of the lost vessel that had left the harbor so many years ago.

SUPER ANGELIC.

George H. Lorimer, the author of "The Letters of a Self-made Merchant to His Son," is no friend, as his writings show, to the high-flown. A practical man. Mr. Lorimer stakes his all upon practical things.

Discussing social veneer at a Lenten debate in Philadelphia, Mr. Lorimer said that in the education of girls the practical did not receive sufficient prominence.

"A young friend of mine in Cynwyd," said the shrewd humorist, "got married last month. He said to me the other day:

"When I married Mamie I thought she was an angel. But, he added, 'I soon found out my mistake.'

"Disappointed?" I asked.

"Disappointed? Nit!" he cried. "I found she was a good cook."

FAITHFUL PARROT.

Not long ago a lady, calling on another, noticed the absence of a cherished parrot, and asked what had become of it.

"Oh, I had to give her away."

"Give her away! And you thought so much of her!"

"Yes, but you know I taught her to ask me in the morning, 'Did you sleep well?' and she was such a dear, faithful little thing that she used to wake me up all night long asking me if I slept well. Nothing could cure her of it—she was so morbidly conscientious—and so at last I had to give her to a night editor of our acquaintance!"

HOW IT WORKED.

"Well, sir," explained young Mr. Soobrals, "it was like this. I thought my wife might be afraid of tramps so I bought her a watch dog. He was a fierce looking bull, and I reckoned he'd about fill the bill. I got him in the morning and had him sent right out to the house. When I got home that night, one of the toughest looking hoboes you ever saw was sitting on the porch. 'What in thunder are you doing here?' I asked. 'Well boss,' says he; 'I come lookin' for a handout, an' de lady she gimme 5¢ cents to stick around an' perfect her from dat dog of yours. She's sure scared of 'im!'"

VERY DIFFERENT THING.

"So Dr. Kwack couldn't save poor Dumley, after all?"

"No, but then it wasn't the doctor's fault. He was treating Dumley for lung trouble."

"Well, and wasn't that what killed him?"

"Oh, not at all. It was his heart that stopped beating, you know."

GOING.

"Has your sister made up her mind to go to the theater with me to-night?"

"It don't take her long to make up her mind."

"Then she is going?"

"If she can make up her face in time."—Houston Post.

THE SOURCE LOCATED.

"That speech," said the vociferous statesman, "came from the bottom of my heart."

"Indeed!" rejoined the critical friend. "It sounded to me as if it came entirely from the top of the larynx."

LASCARS ON BRITISH SHIPS

England Seriously Concerned Over Shortage of Seamen to Man Merchant Marine.

England has become seriously concerned over the shortage of seamen to man her merchant marine. Lascars have now largely supplanted the native product. During the last 15 years there has been an increase of 17,103 of these East Indian seamen, as against 510 Britishers. In consequence, the British government issued a notice recently that foreign seamen should not be engaged on British ships in European waters unless they have enough knowledge of English to understand orders given in that language. It is stated that it has been an uncommon thing to find a ship's crew composed of eight or nine nationalities with absolutely no language in common, and perhaps a boatswain who only understands English as "interpreter." The return relating to seamen employed in the British mercantile marine shows 30 English and Irish per 10,000, while Scotland supplies 56 and Wales 44.—Harper's Weekly.

FEW BEAUTIFUL WOMEN.

"A really beautiful woman is scarcely ever seen, not even in Great Britain, where average good looks are pleasantly paramount," declares Marie Corelli. "Prettiness—the prettiness which is made up of a good skin, bright eyes, soft and abundant hair, and a supple figure—is quite ordinary. It can be seen every day among barmaids, shop girls and milliners' mannequins. But beauty—the divine and subtle charm which enraptures all beholders—the perfect form, united to the perfect face, in which pure and noble thought is expressed in every feature, in every glance of eye, in every smile that make a sweet mouth sweeter—is this what we may search for through all the isles of Britain, and through Europe and America and the whole world beside, and seldom or never find it."

BE A CORKER.

The man who cannot carry into his place of business some element of hopefulness had better take a day's vacation by visiting some unfortunate worse off than himself and then go back to his work feeling that he has reason to be ashamed of himself. Do not be a sinner, but it's worth the powder if only you coker. In nine cases out of ten, when the times are out of joint, it's you, mainly, that is "out of joint." You need a straightforward talking to, by somebody who is large-hearted enough to love you with all your faults, and courageous enough to fire the truth at you.

POINTED REMINDER.

Man with the Bulging Brow—The idea of women meddling with politics! What do they know about it? Do you suppose they have the slightest conception of what you mean, for instance, when you talk about the "big stick?"

Man with the Bulbous Nose—That only shows that you don't know how many uses a woman can make of a steel hatpin.

LEAP-YEAR WOOING.

The Wooer—Cheer up, little one. I shall be careful and brave. We will soon know our fate. Come what may, you shall be mine.

And the leap year girl went in to ask the young man's mother.

PHILADELPHIANS BOBBING.

Mrs. Anthony Drexel introduced the court curtsy into Philadelphia this winter and it is said that society people of that town are priding themselves on their "court bob," the young and supple jointed and the old and weak kneeled, alike, feeling it incumbent upon them to bow that way, now that Mrs. Drexel has taught them.

ENGLAND SAYS NO ALUM IN FOOD

and strictly prohibits the sale of alum baking powder—

So does France
So does Germany

The sale of alum foods has been made illegal in Washington and the District of Columbia, and alum baking powders are everywhere recognized as injurious.

To protect yourself against alum, when ordering baking powder,

Say plainly—

ROYAL BAKING POWDER

and be very sure you get Royal.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar. It adds to the digestibility and wholesomeness of the food.
